Author	How to reach me ?
Notes	Notes from the author
History	Different versions of Easy Assign
To do	Ideas for future releases

### 1.2 Introduction to Easy Assign

Introduction

Easy Assign it's a program for people who make startup scripts for their games. ↔  
Now using  
my program they have to only edit icons tooltypes to make assigns for their games ↔  
or even  
programs.

What Easy Assign can do :

- It can make as much as you want assigns to a directory from witch it was ↔  
launched.
- It can run other program before running the main one.

### 1.3 Requirements for Easy Assign

---

## Requirements

Easy Assign should run on any Amiga with Kickstart 2.0+. It was written for HD users so it's good to have one (but not needed). I have tested my program on my A1200 Kickstart 3.0, 6 MB of RAM and 540 MB HD.

## 1.4 Installation on HD

### Installation

Installation is very easy. You just have to copy EasyAssign to your command 'C:' directory.

## 1.5 How to use Easy Assign

### Using

To use Easy Assign you have to change program icon type to 'Project' (this can be done by icon edit tool). Then you have to edit tooltypes of program icon.

To make assigns type:

```
ASSIGN1=name1
ASSIGN2=name2
ASSIGN3=name3  etc...
```

Were "names" are names of devices to assign (without trailing ':'). You can make as many assigns as you want.

To run other program before running the main one type:

```
RUN=string
```

Were "string" is a command string.

Example:

```
ASSIGN1=Disk1
ASSIGN2=Disk2
ASSIGN3=Disk3
ASSIGN4=Disk4
ASSIGN5=Disk5
ASSIGN6=SaveDisk
RUN=Avail FLUSH
```

And finally you have to write 'EasyAssign' in default tool field.

---

## 1.6 Easy Assign Copyright

### Copyright

Easy Assign is postcardware. It means you can freely copy it, give it to your friends etc. But if you decide to use it, you have to send a postcard to the author. You mustn't modify any file or reassemble executables.

Easy Assign has been tested for a long time and found stable in everyday use. However the author is not responsible for any loss of data, damages to software or hardware that may result directly or indirectly from the use of this program.

## 1.7 About the Author

### About the Author

Easy Assign is written by Piotr Cieniak who is a 17-year-old student of secondary school in Lodz, Poland.

To contact me write to:

(It's also an address where you should send a postcard)

Piotr Cieniak  
ul. Pomorska 138 m.2  
91-404 Lodz  
Poland

You can also send me a fax. My Number:

(48-42) 79 06 50

## 1.8 Easy Assign Notes

### Notes

Easy Assign is written in C. It took me 2 days to write it.

I would like to thank to Piotr Bieniek (author of SWOS Ed) for technical support ↔

.

## 1.9 Easy Assign History

### History

Version 1.0 (27.03.96) - initial release.

---

## 1.10 To do in Easy Assign

To do

It would be nice, if Easy Assign could make assigns to others directories, not only to the program dir. ←

I'm waiting for suggestions from all users of my program. Write or fax to me.

## 1.11 How to edit Tooltypes

Tooltypes

To edit tooltypes:

- Click once on program icon.
- Select INFORMATION command from Workbench ICONS pull down menu.
- There you'll find tooltypes lister.
