

DARWIN(and The Bird) - this character is inspired by the joke where a guy walks into a doctor's office with a frog on his head. Doctor said 'what's wrong with you?'. And the frog said "it started with a bump on my ass".

-in the beginning, there was only the Bird. He was on his way to join the Wild Nines in their fight against

"Domination" and Karn. He took a shortcut through the Bodoni Swamps and dipped into a nearby waterpond. He mistakenly dipped into some toxic slime, which

permanently attached itself to his right foot. Over the period of the next 3 days, the puss-oozing, slime-ridden creature known as "Darwin" grew under his foot. Now the

two make up the coolest permanently attached Odd

Couple in the Annapolis Cluster; one is a Domination bounty hunter, while the other is an avid Wild Nines fan.

-Darwin is a superintelligent bio-geneticist, who is constantly trying to genetically recreate himself without the damn Bird attached to the side of his head!

-Darwin is constantly oozing and erupting slime at all the wrong times

-one of his bio-genetic inventions was the "fodder-gun" which looks like a regular gun with an attached jar full of tadpoles, which when shot, recreates small slimy Darwinian fodder able to do Darwin's bidding

-Darwin has a very foreboding and strong presence (and we're not just talking about smell, either!)
