Geoff Hamilton's Garden Designer

- ◆ Design and keep your ideal garden with this powerful and easy to use package.
- ◆ Draw your garden, including plants, trees, garden furniture etc..
- ◆ Select plants for your garden from an extensive database of over 1000 plants.
- ◆ Search for plants based on soil type, temperature range, lifetime, plant type, height and usage.
- ◆ Look at 256 colour images of all plants in the database.

Look at, or print, a plant care calendar for the plants in your garden, or for any selected plant.

View extra information on plant care, including many animations!

Schwartz World Cuisine

This is the program to own if you're a budding `gastronaut`. Whatever you want to prepare, you'll be sure to have all the important details to hand, from a printed shopping list to your own notes on how to add that extra bit of individual flair!

Comes with 217 recipes from around the world: The program comes complete with a wide range of recipes, especially chosen by Schwartz, covering all famous cuisines of the world. Select an Indian dish to make in 20 minutes or chose an Italian recipe based on ingredients that need to be used up.

Losing a brilliant recipe will be a thing of the past: We all know how frustrating it can be when you can't find the recipe that was a sure-fire winner. Just make a note of the details in your World Cuisine Recipe Book and all your masterpieces will be available - at a touch of a button.

Protect your favourite recipe books from kitchen hazards: keep your favourite books clean and safe by printing a disposable set of instructions whenever you're cooking. And of course you can make a note of those vital `tips and tricks` you pick up by experience that the experts forget to mention!

Minimum System Requirements:

IBM Compatible PC, 386 Processor or above.

Microsoft Windows version 3.1-3.11 or Windows 95, with 2 MB RAM
3 MB Free Hard Disk Space.

GSP HomeWise

The ultimate home and family organiser - includes everything for you and your family to help run an efficient household.

Make sure you know what everyone's up to - leave notes for your family in the program's Message Centre, use the on-line Phone Book to find a particular number, then enter any new arrangements you make onto the Family Calendar for everyone to see.

Create an inventory for every room in the house, and let the program automatically calculate your total contents value - it'll prove indispensable in an insurance claim and you can update the list easily as you increase the family assets.

Keep personal information from the rest of the family! Key in your password to gain access to your own private section of the program and list friend's phone numbers, keep your own calendar dates, update your personal diary and check on your bank balance.

Get every aspect of your house into shape, with features such as holiday checklists, meal planners, pre-trip checklists, a family scrapbook, house maintenance tasks, landscaping projects, pet

information, useful recipes, vehicle maintenance tasks, CD-ROM listings, wine lists etc...

Minimum System Requirements:

The National Lottery Program

The Official National Lottery Software Program!

The ideal way to manage lots of lottery entries and keep track of ticket details for individuals or groups of people.

Store the details of family, friends` and colleagues` numbers and view them all, just those you`ve purchased or the ones that need renewing.

Generate your own set of random numbers or enter a few `lucky ones` and get the program to complete your selection.

Browse through each set of numbers one by one, or view them all at once in group mode.

You can enter the results of every weekly draw and the program will keep the details so you can analyse all the winning numbers in statistics mode.

Enter the winning numbers from a weekly draw and the program automatically checks whether you've won.

If you're lucky enough to win, the program will display which combinations you've matched.

Never forget to renew or check your lottery tickets: automatic reminder warns you when you need to do either of these actions.

Minimum System Requirements:

IBM Compatible PC, 386 Processor or above.

Microsoft Windows version 3.1-3.11 or Windows 95, with 2 MB RAM

2 MB Free Hard Disk Space.

Media:

This title is available from selected branches of:

BEATTIES, BYTE, DIXONS, GAME, GRANADA, PC WORLD, SILICA (Debenhams), SOFTWARE PLUS, STAPLES, TECHNOMATIC, TOYS R US, WATFORD ELECTRONICS, WHSMITH, VIRGIN MEGASTORES & ALL GOOD INDEPENDENT STOCKISTS.

Also available directly from our Customer Services Department.

Business Expenses

This is the program to own if you dread filling in those monthly expense claims. Business Expenses makes the whole process so much simpler. Just make a note of your daily spending and let your PC do all the hard work of producing an itemised claim.

Produce an accurate breakdown of your spending by individual expense categories, such as hotels, meals or petrol.

The handy way to make a note of your day to day business expenses so you won't forget to claim for an individual item.

Tax return nightmares will be a thing of the past - let Business Expenses print out monthly reports for you.

Keep a close eye on your mounting expenses and make sure you stay within your allocated budgets.

Update your individual details as you're reimbursed and make sure you're not missing out on any outstanding payments.

Minimum System Requirements:

IBM Compatible PC, 386 Processor or above.

Motoring Expenses

Whatever make you drive, you'll know that running a car can be a very expensive business. Now you can monitor what you're spending by building a history of the maintenance, repair jobs and petrol you pay for. Motoring Expenses could even help you keep the value of your car!

Work out how much it costs to keep your car on the road and when a new car would perhaps be a wiser investment.

Monitor your engine efficiency with accurate reports on consumption figures available at the touch of a button.

Don't forget when your car needs a service. Let Motoring Expenses remind you of when regular payments or tasks become due.

Contains a handy reference guide containing information on insurance policies, accidents, and selling your car, for example.

Get the best possible price when its time to sell - use Motoring Expenses to produce your own service history reports.

Video Library

Whilst managing to master the timer on most video machines can be quite a task, managing to keep track of all your tapes can be just as challenging! If you can never find the TV show you've taped, or you're never sure whether to record over a cassette, then help is at hand.

Create a video collection that will be the envy of you're friends - includes 145 classic films to get you started.

Don't forget to record the great film that's on TV soon - just print out the details of the film as a reminder

Remembers every detail for you so there'll be no more staring at a film title that means nothing to you.

Fancy a comedy? then Video Library will automatically call up a list of appropriate titles you have.

You'll never record over a favourite film again - keep a catalogue of all your tapes in your collection.

Quotes & Clippings

It may sound obvious but the trick to using quotes lies in the ability to find the right one! With its ability to word search and even add bookmarks to any quote, Quotes & Clippings is certain to become an invaluable aid for anyone producing creative writing.

Add weight to all your written documents by including a relevant quote or press comment.

Compile your own book of quotes from literary sources, the media or even using memorable comments from friends!

Create your own topics, search for quotes and add bookmarks to show ones you've used, your favourites or possibilities.

Copy quotes to other Windows documents, print out lists, or even transform your favourite quotes into posters.

Comes complete with an entire book of over 1500 classic and amusing quotes for you to reference and add to.

Loan Analyst

In the finance market it is usually easy to borrow money but very hard to get impartial advice. But with Loan Analyst you can easily compare and analyse the facts, helping you answer the trickiest questions and get the best deal on offer.

Use your PC's power to pinpoint the best finance deal on offer whenever you make a major purchase for home or business.

Avoid complex financial jargon - simply enter a few basic details and compare finance options by doing your own what if analysis.

Produce your own charts or tables of figures so you can clearly see which is the best deal for you to go for.

Ideal for every major purchase; cars, holidays, computers, office equipment, hi-fis, televisions, etc.

Analyse the finance packages offered by banks, building societies, credit and store cards, HP

deals or overdrafts.

Photo Collections

1500 Photos: Professional shots on CD ROM

Add a professional touch to all your documents with this impressive collection of top quality, 24-bit colour photographs.

Choose from 1500 pictures divided into categories such as sunsets, flowers, textures, city and even amusement parks.

Instantly transform newsletters, brochures and posters - with such a wide selection to choose from, you'll always find a picture to suit the occasion.

Use each piece of clipart as often as you like - the entire collection is Royalty Free.

Media:

Please Note!

1500 Photos on CD ROM are stored in **.TIF** and greyscale **.BMP** file formats.

Those photos supplied in **.BMP** format are smaller than those in **.TIF**, but are better suited to applications printing to black and white printers.
