

Telefinder™

Macintosh BBS setups running Telefinder and "BBS IN A BOX" will find setup very easy.

Simply open your configuration file in Telefinder Host after mounting the CD-ROM and select the "AMUG CD" to mount. This will give your BBS's users access to all of the files on the disk. You can just mount a few of the folders as well including the Files folder if you do not want to mount the entire disk. We have removed the system software from this CD in order to allow all sysops the ability to mount the entire CD without having an Apple License Agreement.

If you do not currently own Telefinder you can purchase it from:

Spider Island Software / Rusty Tucker

4790 Irvine Blvd, #105-347

Irvine, CA 92720

AppleLink: D4955

(714) 669-9260

I strongly suggest all of you consider using Telefinder with Fidonet echoes. The Fidonet / Tabby interface tools for Telefinder can be purchased for \$25.00 from:

MacWizards

718 E. Campbell Ave.

Gilbert, AZ 85234

(602) 892-5454

OR

John W. Sinteur

Strawinskypad 82

2324 DB Leiden

Netherlands
