Line 208

Registered retirement savings plan (RRSP) contributions

The maximum you can deduct for contributions is determined in (A) OR (B)

(A) You may have received a notice last fall called, 1991 RRSP Contribution Limit Statement. In most cases the amount shown on the statement is the maximum amount you can deduct for what you contribute to either your own or your spouse's RRSP.

1990 Pension adjustment: 1990 T4 or T4A

The amount called your net PSPA (Net Past Service Pension Adjustment) reduces the amount you can deduct for RRSP contributions. Your net PSPA for a year is the sum of all your exempt (T215) and certified (T1004) PSPAs for the year, minus your RRSP qualifying withdrawals (T1006). These forms will be given to you by your RPP administrator if they apply to you.

Social benefits repayments—the “clawback”

If you received Unemployment Insurance (UIC), Old Age Security (OAS), or Family Allowance (FA) benefits during the year and you have a relatively high ($\geq \$50,000$) “net income before adjustments” (at line 234), you must pay back part of them.

For this calculation, please enter these amounts:

S + FA benefits you have repaid this year: (if any)

UIC benefits you have repaid this year: (if any)

NOTE —: The rest concerns spouses, “supporting persons”, children or pensions:
if you have none, go to other worksheets.

Line 303**Married Amount**

In the year of marital termination, net income of spouse is net while not separated.

If you married in 1991, include your spouse's net income for the whole year.

If you were separated and then reconciled in 1991, include spouse's net income for the whole year.
