

Your favorite Looney Tunes
&
Merrie Melodies Characters
ICONIZED!

This is the latest upload of these icons, of friendly characters that I began to draft while reading Mel Blanc's Memoirs: "That's not all Folks". Mel did have a lot of fun in his lifetime!

And I had too, drawing these characters, but this will be the last upload (unless you have a special request!), because I do have to earn a living too...

You can use these icons with *Façade*, an INIT which allows you to replace the disk icons on the desktop with nicer ones. You can also place them on the menu, with *ResEdit*, or edit them with *CiconEdit*, or any other Icon editor. They can also be transformed into ICON resources for Hypercard.

They are free for you to enjoy! Drop me a note if you have used them in applications of your creation!
