

BroadCast is shareware. If, after a trial period of one month, you decide to use it, you must register your copy. The fee is US \$25 for each zone or US \$100 for all zones within one AppleTalk network. Please send a check drawn on a US bank, or convert the fee to local currency. If you have problems with advance payments, I accept purchase orders. Registered users will receive a disk containing additional information, including the unix (Columbia AppleTalk Protocols) version.
