Chapter 1

FM

1.1 main

VHI FrameMachine driver

A driver for the VHI-interface for the electronic-design
FrameMachine video card.

*** To use this driver, you also need to download the ***
*** latest FMdriver-package which contains the ***
*** FrameMachine hardware driver!!! ***

The FMdriver-package also contains a full documentation of
this new FrameMachine driver system.

To get the FMdriver-package and the latest VHI-driver version,
please visit my homepage:

<http://www.qdev.de>

You find there much more interesting FrameMachine programs and
other cool stuff...

Credits	Thanks to...
Registration	GIFTWARE, please read this!!

1.2 Credits - Thank you

Thanks to:

- electronic-design for the support
- Daniel Swertz and Rainer Steffen for providing the sources
- Felix Schwarz for the VHI-Standard
- Gerd Frank for providing the hardware and good ideas
- Haage&Partner for StormC and WarpOS
- phase5 for the PowerPC-Boards and the CyberVision64

1.3 Registration - GIFTWARE

Registration

The new FrameMachine drivers are free. But don't forget that this VHI-driver is a result of a long and hard research/work.

So if you use this software and want me to make further updates, it would be fair, that you send me a donation of your choice (money [e.g. \$10] or other useful things like hardware, etc.).

You can reach me [here](#) .

1.4 Disclaimer - Warranty

Disclaimer

No warranty, either express or implied, is made with respect to the fitness or merchantability of this software.

The FrameMachine driver and the programs using it were tested intensively and there was no problem encountered using it.

The software should also run on your system.

But I'm not responsible for any damage which
could be - directly or indirectly - caused by using it.

The user of this software use it at his or her own risk!

1.5 Author - contact information

eMail: stefan@qdev.de

Improvements, bugreports, suggestions etc. are welcome.

The FMdriver package is GIFTWARE!

If you like my work, I would be very
happy to receive a donation of your choice from you!

Please also read the page Registration .

And don't forget to visit my homepage: <http://www.qdev.de>

You can get there the latest updates, additional information and
much other interesting software...
