## WarpDTPrefs

### 1.1 WarpDTPrefs 44.6

WarpDTPrefs 44.6 - preferences program for WarpJPEG, WarpPNG, WarpBMP, WarpPSD and WarpTIFF picture datatypes

Copyright © 2001 Oliver Roberts, All Rights Reserved.

Description	what is this datatype for?
System requirements	what you need to use this software
Installation	installing this software
Distribution	distribution conditions
Disclaimer	important notices
Acknowledgements	thankyous and credits
Support & the Future	support + improvements I intend to make
About the author	how to contact the author
History	program history

### 1.2 Description

WarpDTPrefs is a preferences program which allows you to easily change and manage the settings of the WarpJPEG, WarpPNG, WarpBMP and WarpPSD and WarpTIFF picture datatypes.

For information on the options present in the GUI, please read the relevant sections in the documentation supplied with each datatype.

### 1.3 System Requirements

WarpDTPrefs requires the following in order to work:

- AmigaOS 3.5 or higher
- 68020 processor or higher

## 1.4 Installation

To install WarpDTPrefs, simply run the provided installer script by double-clicking the icon.

Alternatively, just drag the WarpDT icon to a location of your choice (e.g. SYS:Prefs).

## 1.5 Distribution Conditions

WarpDTPrefs is public domain with the copyright remaining with the author and may be freely distributed legally providing:

- (1) None of the distributed files are changed in any way
- (2) It is not sold for profit and it is not included on any disks that are sold solely for profit (includes magazine coverdisks)
- (3) The distribution contents remain complete (see list below)

If this software is to be sold for profit, permission must be obtained from me, the author.

Aminet and Amiga Active have been granted permission to distribute WarpDTPrefs on their CDs.

The following files must be present in their original and unchanged form in any copies of this software:

## 1.6 Disclaimer

This software is provided "as is", without warranty of any kind, either expressed or implied, statutory or otherwise. By using the archive and its contents, you accept the entire risk as to its quality and performance.

Neither Oliver Roberts nor any other party involved in the creation, production or delivery of the archive and its contents shall be liable for any direct, indirect, special, consequential or incidental damages, including without limitation damages for loss of profits, loss of use or loss of anticipated costs, expenses or damages, and any data or information which may be lost or rendered inaccurate, even if Oliver Roberts is advised of the possibility of such damages.

Do not attempt to tamper with the supplied files. Doing so will cause problems and you may find things start going wrong!

## 1.7 Acknowledgements

The ATO (Amiga Translators Organization - <http://ato.vapor.com>) handled the localization of the program strings, installer and documentation. Thanks to everyone who was involved in translating to various languages.

Thanks to H&P and the OS 3.5 development team, especially for the brilliant ReActor, which I use to create/manage the GUI for this program.

---

## 1.8 Support & the Future

If you have any suggestions, please let me know.

Future releases of WarpDTPrefs will be available from either Aminet (util/dtype/WarpDTPrefs.lha) or its webpage:

<http://www.nanunanu.org/~oliver/warpdtprefs.html>

If you would you like to know when WarpDTPrefs is next updated, then you may want to subscribe to my announcement list to receive an e-mail informing you of the changes as soon as a new versions of any of my products are released. To subscribe, send a blank e-mail to

[futaura-announce-subscribe@yahoogroups.com](mailto:futaura-announce-subscribe@yahoogroups.com)

or go to

<http://groups.yahoo.com/subscribe/futaura-announce>

## 1.9 About the author

If you have any problems with this software, or if you have any suggestions/queries, please contact me and I will do my best to sort any bugs out as soon as possible:

## 1.10 Program History

44.6 (20.8.2001)

- Added greyscale JPEG output mode.
- Added TIFF fax options.
- Added PNG alpha channel mode selector.
- Corrected default PNG image gamma value (was 0.5 - now 0.45455).
- Now uses less stack.

44.5 (31.7.2001)

- Added support for WarpTIFF.
- Recompiled with VBCC 0.8.

44.4a (27.5.2001)

- Added português catalog and documentation.

44.4 (16.5.2001)

- Thanks to the ATO, who have provided language support for czech,
-

deutsch, español, français, italiano, norsk, polski, russian, srpski and türkçe, including locale catalogs and installer translations.

- Was forced to reorganize the window layout slightly, to make all the keyboard shortcuts work correctly.

#### 44.3 (4.4.2001)

- Added "Test" button, which allows you to adjust and try settings without closing the window and reloading WarpDTPrefs each time.
- Added output mode and colour reduction settings for WarpJPEG 44.19.
- Added gamma correction settings for WarpPNG 44.14.
- Added support for WarpPSD.
- Added pen selection settings.
- Fixed visual corruption which occurred if gadgets were updated in a page that wasn't frontmost.

#### 44.3 (4.4.2001)

- Added "Test" button, which allows you to adjust and try settings without closing the window and reloading WarpDTPrefs each time.
- Added output mode and colour reduction settings for WarpJPEG 44.19.
- Added gamma correction settings for WarpPNG 44.14.
- Added support for WarpPSD.
- Added pen selection settings.
- Fixed visual corruption which occurred if gadgets were updated in a page that wasn't frontmost.

#### 44.2 (18.3.2001)

- Fixed problem with the dither gadgets not getting ghosted on startup if the dither override setting was set to "Nothing".
- The installer wasn't copying the WarpDT icon - fixed.

#### 44.1 (15.3.2001)

- Initial release.
-
