

## **Exiting**

To exit the Menu (commonly referred to as the “Launcher”) and most Windows programs, you need to hold down the Alt key and then press the function key F4 twice (the F4 key is generally found at the top or left side of your key board). The first time you exits you from this screen, the second time quits the Menu or Launcher program.

Through Windows 95, exiting DOS programs sometimes requires an extra step. Hold down the Control key (Ctrl) and press the letter “C” to close any remaining DOS window.

**The End**
