## STENCIL PATTERNS

### Fields of Application:

Select from 19 different MASTERTOP® Decorative Coating stencils to add lasting elegance to concrete and masonry surfaces. Stencil patterns for MASTERTOP Decorative Coatings are field proven for use on horizontal applications.

Applications include:

- Balconies
- Patios
- Entrances
- Walkways
- Pool Decks
- Driveways

### Environment:

- New or existing concrete or masonry surfaces
- Horizontal applications
- Interior or exterior substrates in light commercial and residential pedestrian and rubber wheel traffic areas

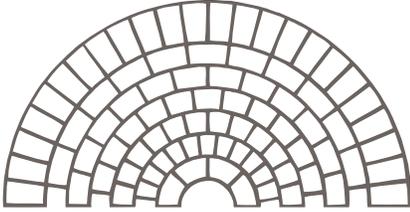

### Description:

MASTERTOP Decorative Coatings are a dynamic way to combine architectural design, color and texture with a cost-effective protective coating. The system offers much more than aesthetic beauty from numerous stencil patterns, color combinations and textures. The one-component, polymer-modified coating can be used to improve pitch and blend uneven surfaces and adjoining areas. The result is enduring architectural appeal for driveways, entryways, patios, pool decks, light commercial applications and more.

### Benefits:

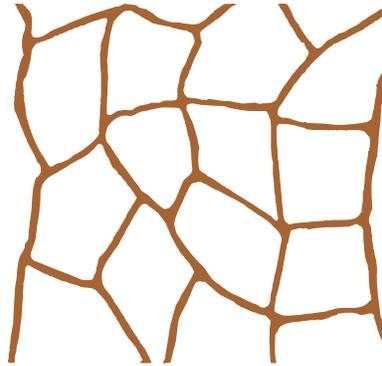

- Installation in three easy steps: surface preparation, crack analysis and patching, and application of coating
- One source for all system components (polymer-modified cementitious coating, liquid colorants, sealer, and stencils or marked reinforced tape)
- Easy-to-use nonadhesive-backed stencils (includes mounting putty)

## Stencil Application:

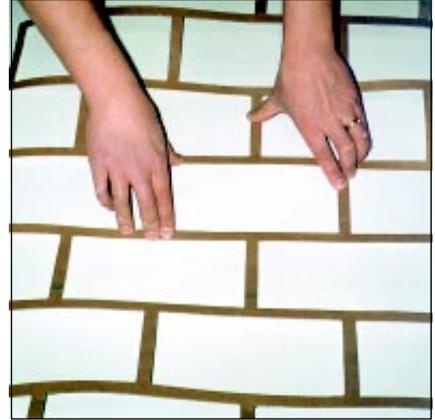

### Step 1

Once the stencil has been cut to the needed length, place it on the surface to determine the desired position.

### Step 2

With the nonadhesive-backed stencil, there may be areas where it does not lay completely flat. In these spots, a small amount of mounting putty can be applied to the back of the stencil.

### Step 3

Gently press the stencil into place. Make sure there are no raised spots in the stencil before applying the next layer of decorative coating.

## Product Packaging and Yields:

- Nonadhesive-backed stencils: Approximately 1,000 ft.<sup>2</sup> coverage (includes mounting putty)
