

Hot Text

Not only does the Adult Almanac have searching, it has Hot Text! Hot text allows for easy navigation to Movies and Stars. Stars listed in the Movie category Starring and Review are boldface if they are in the Stars Book. Likewise, Movies listed in the Bio category

are boldface if they are in the Movies

Book. Simply click on the boldface

ext and the page for that Book will

be displayed. Stars or Movies not

boldface are not in either Book.
