

## Viewing Movies and Stars

Viewing Movies and Stars is very simple in dult Almanac. Each has their own "book".

The title above each book indicates the number of Movies or Stars currently selected. This number will change as you search for a particular set Movies or Stars (See Searching).

To select any Movie with the current book set, simply click on the book's "thumb" and drag left or right (see example to the right). Moving the thumb to the left decreases the Movie number and moving it to the right increases the Movie number.

To move to the next or previous page, simply click on either book page. The left page is previous and the right page is next.

To open the Stars book, just click! The Stars book functions just like the Movies book.
