

THIS IS MARBOLO

If you've properly installed the Marbolo TrueType font, then this Windows Write file will give you a rough guide to the other 14 fonts you can order. These samples are selected pairs of characters, without any spacing or kerning control. Use this as a guide to the letter shapes and styles only.

Comaro	Deborah	Cairo	Inscruta
¿À	ÁÂÃ	ÄÅÆ	ÇÈ
Mottek	Rhinofon	BeesWax	Bulge
ÉÊË	ÌÍ	ÎÏ	ÐÑ
TallDeco	Gael	Broadbay	Grammar
ÓÔÕ	ÖØ	ÙÚ	ÛÜ
JoeLouis	Coliseum	Marbold	
Þß	àáâ	ABC135	

(Marbold is the same font as Marbolo, but without the above sample characters "hidden" within the file. It includes all of the Marbold character set you now have available, but the file is more compact without these sample characters.)
