

## ASCII to HyperText + HyperText to HTML

---

READ\_ME.DOC        this file  
TXDB125e.ZIP       compact HyperText authoring tool,  
                     reader platform and conversion to HTML format  
ASC-HTML.DOC       step by step: ASCII to HyperText  
TXDBGEN.ZIP        ASCII to HyperText conversion (expand separate)

- please expand the two \*.ZIP files in two separate(!!) subdirectories because of identical file names in some example-files,
- test first "TXDB125e.ZIP" and only later the ASCII to HyperText conversion "TXDBGEN.ZIP", for better understanding,
- read the short "ASC-HTML.DOC", step by step instructions.
- Environment: MSDOS, Windows-DOS-Window or OS/2-DOS-Window. In a Windows or OS/2 environment start TXDB in two or more DOS-windows at the same time, so you can navigate parallel in different paths in your HyperText.
- TXDB Version 1.25 is FREeware, please read the REGISTER.DOC file in TXDB125e.ZIP, registration of TXDB Version 1.3.

### 1. compact HyperText System TXDB125e.ZIP

---

- 1.1 read "!READ\_ME.DOC" first (separate file)
- 1.2 start with "START2.BAT" for color display,  
      "START.BAT" monochrome notebook or palmtop,
- 1.3 if you will convert TXDB to HTML (for INTERNET browsers)  
      start the "HY-HTML.BAT" file, all \*.TXT examples in the  
      subdirectory will be converted to \*.HTM files.  
      HTML-Viewer in CompuServe:  
      for MSDOS, Internet, Macintosh: GO INETRESO(URCES),  
      for HP200LX Palmtop: GO HPHAND Lib-11  
                                  HV.ZIP from Andreas Garzotto

### 2. ASCII to HyperText conversion TXDBGEN.ZIP

---

- Please test first the TXDB125e.ZIP HyperText System!  
Learn the simple operating with TXDB prior to the conversions.
- 2.1 copy the TXDB.EXE, INTRO-1.TXT and INTRO-2.TXT files  
      from the "TXDB125e.zip" package into this directory also,
  - 2.2 read TXDBGEN.DOC
  - 2.3 run sample "ASCII to HyperText" with "ASC-HYP.BAT"
