

Registration, upgrade to --> TXDB Version 1.3

-----  
TXDB Version 1.3 is for registered users, registered users name or company name will be displayed on the front page, in one line as >Program registered for .....<  
Registered users are free to market their hypertexts for charge and include the registered TXDB.EXE as framework for the readers.  
Please register with your full name, your CompuServe address and the exact registration text: <your name> or <company name>  
I will send registered TXDB.EXE files via CompuServe mail or disk.  
-----

- Online Registration: in CompuServe GO SWREG
- Select 'register shareware', then follow the on-line instructions.
  - The registration fee for TXDB is \$20 and will be charged to your CIS bill.
  - The shareware registration ID for TXDB in the SWREG database is "6066", but you can also find it using the authors name (Tamas Szabo) or his CIS Id (100105,2072).
  - Title in the registration database:  
"ASCII to Hypertext compact authoring tool".
  - CompuServe informs me of your registration, I will send the TXDB.EXE file Version 1.3 via CISMmail.
  - The average time that I take to reply to an SWREG registration is about one week or less.
