

## How to contact the author

My name is Graham Herrick and the name of my shareware company is Quadratic Software. If you find a bug, have comments or suggestions, or just want to say hi, my e-mail address is <support@quadratic.com>. Before sending bug reports, please read the "troubleshooting" section of the "questions and answers" topic to make sure the problem isn't already covered.

<<http://www.quadratic.com/>>

The Sloop page, which will always contain the latest information and links for downloading the latest versions, is located at:

<<http://www.quadratic.com/Sloop/>>

My Kagi e-mail forwarding address is <gherrick@kagi.com>. The reason for the Kagi email forwarding address is that if my other email addresses change, the Kagi address will still be valid. So if you can't get through to <support@quadratic.com>, try <gherrick@kagi.com>.
