### THANKYOU...

For trying out MLP<sup>ro</sup> or MLP for short. I hope you find MLP useful.

### ABOUT MLP

MLP is probably the most comprehensive 'Music' and 'Computer' catalogue database currently available.

Amateur and professional record collectors, record shops, music studios, multimedia publishers, computer disk libraries and companies producing short runs for their latest programs or demos will find MLP's archiving and labelling easy to use.

### PLATFORMS

MLP<sup>ro</sup> is available for the following computer platforms:

- Apple Macintosh™
- Microsoft Windows95™

### MLP REQUIREMENTS

- FileMaker Pro™ is **NOT** required to run MLP<sup>ro</sup>
- Any colour (680x0 and PPC) compatible Mac
- Minimum 16Mb RAM
- System 7.0 or higher (7.5 required for drag and drop features)
- Minimum 256 colours (thousands recommended)
- Minimum 14" monitor (17" recommended)
- Registered version requires approx. 10Mb (excludes your data)

To find out how to register MLP<sup>ro</sup> continue reading this short intro doc.

Happy computing...

Jonathan Anderson

### HOW TO SELECT THE NEXT PAGE

1. Use the mouse to drag the slide bar (bottom right corner) to the right or
2. Click on the "About ML" window (bottom left corner) and select the next chapter using the mouse.
