

# Registration

Default Folder is distributed as shareware. You may try it for 30 days, after which we ask that you either delete your copy or register it by sending \$25 (US) via the Kagi Shareware registration service.

Once you have registered, you will receive full technical support via email or FAX, and notices of updates and bug fixes as soon as they're released. You will also receive a registration code to disable the dialog that reminds you that the shareware evaluation period has expired.

Please be honest and pay for shareware that you use. It's the only way we'll be able to continue to support and improve the product, so your payment does matter!

Cash, check, VISA, MasterCard, American Express, First Virtual and Money Orders can be used for payment. To register, do the following:

- 

Either:

- 1) Double click the Register SCS application, or
- 2) Click on the "Info" button in the Default Folder control panel, and then on the "Register" button.

- 

Fill out the online registration form. For credit card and First Virtual orders, your number will be encoded so it can be safely transmitted via fax or email.

- 

Save, copy, or print the form, depending on how you'll be sending it.

- 

Send the form and payment by mail, FAX, or email to Kagi Shareware at:

Use these addresses for registrations only

Email: (Internet) [shareware@kagi.com](mailto:shareware@kagi.com)

Fax: +1 510-652-6589

Mail: Kagi Shareware  
1442-A Walnut Street #392-ST  
Berkeley, California, 94709-1405  
USA

Payments sent via email are processed within 3 to 4 days. Payments sent via mail and fax take up to 10 days (plus transit time for mail). If you provide a correct Internet email address you will receive an email acknowledgement. Otherwise, a registration letter will be sent to you via the postal service.

There are reduced prices for purchasing multiple copies of Default Folder. These prices are automatically computed by the online registration form when you fill in the number of copies. For large purchases, the site license option will allow you to use Default Folder at all your organization's offices within a 100 mile (160 kilometer) radius of each other, while the worldwide license option allows you to use an unlimited number of copies. Again, see the online registration form for pricing of these options.

If you would like to submit a purchase order, please do so directly to St. Clair Software at one of the addresses listed in the Technical Support section.

You can also register via CompuServe - type GO SWREG and register for product #1669. However, please note that we are charged 15% of your registration fee by this service, and would thus prefer you submit payment through Kagi Shareware if possible.

## Technical Support

The latest news, technical support answers, and product listings can be found on our World Wide Web site at:
