

If you have Microsoft Word for the Macintosh, you can open this document without requiring any translation. Notice that the formatting has been kept intact:

This is a centered paragraph. All of the text in this paragraph is centered within the paragraph margins.

**Boldface**, *italic*, ~~striketrough~~, underline, even subscript and superscript text.

Now you can use your MS-Word files directly on MS-DOS disks!

If you do not have Microsoft Word for the Macintosh then using Macintosh Easy Open and the Mastersoft Word for Word translators provided with AccessPC you can translate this document into a format which you can read.
