

To search files by file date, follow the steps below:

1. Click the Options button to display the Search Options dialog box.
2. Choose the Properties tab, enter the selection rules of file date range, and click OK.
3. Click the Date box in the Searchbar. (If you want to search all subfolders, click the Include subfolders box.)
4. Select the folder to be searched and click Apply.

To search files by file size, follow the steps below:

1. Click the Options button to display the Search Options dialog box.
2. Choose the Properties tab, enter the selection rules of file size range, and click OK.
3. Click the Size box in the Searchbar. (If you want to search all subfolders, click the Include subfolders box.)
4. Select the folder to be searched and click Apply.

To search files by attribute, follow the steps below:

1. Click the Options button to display the Search Options dialog box.
2. Choose the Properties tab, click the applicable Read Only, System, Hidden or Archive options and click OK.
3. Click the Attributes box in the Searchbar. (If you want to search all subfolders, click the Include subfolders box.)
4. Select the folder to be searched and click Apply.

Turbo Browser can find files by a given string of text. You can select either Exact Match or Best Match to find files containing the text string. Exact Match will list files containing the exact text string while Best Match will list files containing the closest text string. Turbo Browser can also find files by Boolean "and" or "or".

To search files by contents, follow the steps below:

1. Click the Options button to display the Search Options dialog box.
2. Choose the Contents tab, enter the text string, select the matching options, and click OK.
3. Click the Content box in the Searchbar. (If you want to search all subfolders, Include subfolders box.)
4. Select the folder to be searched and click Apply.

You can search the entire computer including all subfolders by checking the Include subfolders option.

To search files including all subfolders, follow the steps below:

1. Click the Include subfolders box.
2. Select the folder to be searched and click Apply.

To display Search Options dialog box, click the Options button. You can enter the selection rules of file size, attributes, and date range. You can also enter the text string and select the matching options.

To start the search, select the folder to be searched and click Apply.
