Editor's Choice - Ranked #1 in Performance and Ease of Use

Arts & Letters EXPRESS is the top of the Arts & Letters line. It includes over 10,000 Drag & Drop clip-art images organized in over 190 libraries. Among the 190 libraries are Aircraft, Cartoons, Computers, Fantasy, Flags, Holidays & Seasons, Landmarks/Historic Sites, Maps, Musical Instruments, Nature, People, Religion, Science Fiction, Signs, Space, Sports & Recreation, and Transportation. The Clip-Art Manager displays previews of each image and provides a keyword search feature.

Pushpins allow dialog boxes to be kept on-screen during editing sessions. Assign attributes by selecting from visual palettes of fills and line styles.

The Color Filters feature allows you to adjust the colors of all objects in a file -- or just a few -- without breaking apart the objects: convert to grayscale, replace hue, add/remove (mix) paint are just a few of the controls.

Extrude and Warp/Perspective allow you to simulate two-point perspective and three-dimensional effects automatically. Hole-cutting allows backgrounds to show through objects. Autotrace automatically transforms bitmaps (scanned images) into editable objects.

Additional advanced features include masking and polymorphic tweening. A dynamically updated Hint line displays options and identifies tools and commands. An on-line glossary and keyword search facility provide instant answers to any questions. Sophisticated editing tools, construction toolbox for precise drawing, line-to-curve conversion, and 4-color separations make *Arts & Letters EXPRESS* the equal of any graphic arts task.
