### **SHIPPING AND HANDLING CHARGES; VOLUME DISCOUNTS; SITE LICENSES**

Shipping and handling together is \$4.00 for each copy of the program delivered on floppy. The least expensive way to obtain the registered version of the program is to download it from our website (see Internet address above), the same location where the demo version of the program is available, and purchase a password (see below).

If you are interested in multiple copies, contact us with the number of copies you require and how many ship-to addresses are involved. We will quote you a price plus shipping and handling. The quote will also depend

on whether all copies are being shipped to one address or if they are being shipped to multiple addresses.

If you are interested in a site license, contact us with the number of users and the type of organization that would be using the site license (non-profit, school, company, etc.). We will give you a quote at the earliest opportunity.

## **PURCHASE OPTION**

I am requesting:

☐ A password to register a downloaded copy of the full program.

I prefer to receive it by:

☐ Snail Mail to postal address above.

☐ Email to email address above.

☐ A 3.5 floppy with the full program (note: this option requires the payment of shipping and handling).

I am paying with:

☐ CHECK (drawn on US banks, only)

☐ CASH (by registered mail only, please)

☐ MONEY ORDER (drawn on US banks, only)

☐ TRAVELERS CHECK (issued by International companies doing business in US, only)

Prices are good through 12/97, subject to change thereafter. If you are sending a check or money order, please make sure that payment is made in US funds drawn on a US bank. Travelers checks should be issued by International companies doing business in the US.
