

INSTALLATION

Double click the file: Install.exe.

After the program is installed, either delete all the files in the the subdirectory in which the self-extracting file Bsfwdemo.exe was opened or save them to a floppy or subdiretory for later reinstallation.

RUNNING THE PROGRAM IN WINDOWS 95:

To run the program, go to START>PROGRAMS>SPACE FLIGHT DEMO>SPACE FLIGHT DEMO. After the program is installed, you can create a short-cut to it in Explorer and place the shortcut on the Desktop. This icon can then be used to run the program.

To remove the program from your computer, run the uninstall program, accessible through START>PROGRAMS>SPACE FLIGHT DEMO>UNINSTALL.

The Quickstart selection on the Table of Contents page has basic instructions on using the program. Click the icon to the left of Quickstart to access the page.

RUNNING THE PROGRAM IN WINDOWS 3.1 OR LATTER:

To run the program, go to PROGRAM MANAGER, double-click the "Space Flight Demo" group, then double-click the Icon labeled "Space Flight Demo."

To remove the program from your computer, run the uninstall program, accessible through the Uninstall icon in the same group.

The Quickstart selection on the Table of Contents page has basic instructions on using the program. Click the icon to the left of Quickstart to access the page.
