

## **Flash'N Fashion Product Description**

by Media Motion Publications, Copyright 1994-1997 All Rights Reserved

Flash'N Fashion is an exciting design tool for young designers who wish to explore the creative world of fashion design. Most important a child is given a sense of accomplishment by seeing an outfit designed from concept to it's actual sewn product. Children are exposed to the basic aspects of fashion design,

- Self Awareness via Model with Child's Face
- Garment Fashion Terminology
- Color/Pattern Coordination
- Fabric Types and History
- Fashion Designing
- Cutting Patterns
- Basic Sewing
- Garment Assembly

Each of the above subjects is taught via interaction between a child and Flash'N Fashion. To keep the learning experience less frustrating, all sewing projects are designed to fit 12" and 18" dolls (allows most patterns to fit on a single 8-1/2" x 11" page printout).

Flash'N Fashion's program features are,

- Log into Program by Name to Maintain Own Fashion Designs
- Design Up to 10 Outfits from Canned Garments
- Custom Garment Design by Component Fashion Terms
- Fabric Selection and Custom Design for,

- Solids
- Prints
