

The Junior Science Series
Volume #1 - Reflections

In this educational bonanza, your children get to take a closer look at themselves in the mirror and see just who they are and how their reflection comes to be. Through the animated stories of the Birds and Big Bear, your child will see how light reflects and how mirrors work. There are also some good tips on what to do if you are out in the sun. You can listen to The Wise Man teach science or help Big Bear find his winter sleeping spot. A learning experience that no child should be without, learning how the world works around them.
