

Thank you for taking time to review the Mindforge(sm) Fractions demonstration program. It differs from the full version of Mindforge Fractions in the following ways:

- 1) MooMoo the cow is the only instructron available in the demo version. In the full version there are four additional instructrons. Please see our web site at <http://www.mf-fractions.com> for details.
- 2) Topic One, Parts of a Whole, is the only topic available in the demo version. In the full version, there are two additional topics: Relative Size, and Parts of a Set.
- 3) The load/save feature is disabled in the demo version.
- 4) The help function is disabled in the demo version.
- 5) Most of the keyboard shortcuts have been disabled in the demo version. The ones that are available are

TAB - skips animations

ESCAPE - skips tutorial

SPACE - repeats a question

CTRL "Q", "W", "." - quits program

- 6) There is no music available in the download demo of Fractions.
- 7) The download demo does not include the intro sequence and menu page.

We hope you enjoy the demo of Mindforge Fractions.
