By now you have probably installed our map pack. This map pack represents our finest effort in producing an error free map pack. We guarantee that you will find no errors in our maps.

When you are selecting a map in the game you will see that each map has it's size and amount of players. Just because you are a playin one or two other guys doesn't mean you can't play an eight player map. It won't hurt your game at all. The amount of players is just a recomondation on the limit of players per map.

Our Maps are natural looking. We avoid repitiousness in our maps. That is that we don't use the same map blocks over and over again.

Check out the Ra-MapPack they have like the same map (motherload) more than once in their pack. We have no repeats at all in our pack.

We have an update planned soon, it will include over 130 maps. So stay tunned and visit our site. Don't forget to tell your friends!!

WE WOULD LIKE TO THANK:

**THE MANY NAMELESS AUTHORS ALL ACROSS THE
INTERNET.YOU GUYS MAKE IT HAPPEN. THANKS!!**
