Benefits of the User Group Program

Groups are recognized based on a 2 page questionnaire, which along with a copy of their newsletter, will qualify them for benefits from Corel.

Corel offers evaluation software for review. We ask all groups to complete their evaluations within 3 months of receiving the product and to submit a copy of the review published in their newsletter to us.   These copies can then be contributed to the groups library or raffled (auctioned) to raise money.

A monthly newsletter outlines what is happening at Corel and what new products are scheduled for release.   All current press releases are highlighted in the newsletter.   This newsletter also outlines any specials which have been negotiated for the coming month(s).   Specials are available on software/hardware/books/etc.   Samples and promotional items will be included in this package when available.

Special events (as noted in the newsletter) are designed to help the groups get a look at the new products being released or worked on at Corel.   We encourage the groups to attend, and will provide space for group literature at the events, in the hopes that it will encourage new memberships.

Access to our mailing list is also provided.   Any group wishing to expand their membership may have access to our mailing list. The numbers of names will be 500 per request or equal to the current membership of the group, whichever is higher.   Additional requests will be entertained upon receipt of an update questionnaire showing any changes in the groups status after the initial mailing.   Groups must provide zip code ranges and any other specifications to Strategic User Programs using a form specifically for this purpose.

Product updates are made available to the groups as soon as they have been produced, allowing the group to demonstrate the product in many cases before it reaches the market. Please note that the group's evaluations must be up to date to qualify for new product updates.

We are striving to make the User Group Program new and interesting to our groups: Please forward any suggestions you may have to Corel.
