Contents

Before You Begin ix

- About the Installation and Planning Guide x
- About Online Help x
- About the Online Examples xi
- What You Should Know xi
- Finding Further Information xii
- Accessibility for People with Disabilities xiii
 - Microsoft Services for People Who Are Deaf or Hard-of-Hearing xiii
 - Access Pack for Microsoft Windows xiv
 - Keyboard Layouts for Single-Handed Users xv
 - Microsoft Documentation on Audio Cassettes and Floppy Disks xv
 - Products for People Who Are Blind or Have Low Vision xvi
 - Customizing Windows xvi
 - Getting More Information xvii

Chapter 1 Installing Internet Information Server 1

- Installation Overview 1
 - Installation Requirements 2
 - Windows NT Configuration and Security Checklists 3
 - Windows NT Configuration Checklist 3
 - Windows NT Security Checklist 4
 - Contents of the Compact Disc 4
 - How to Install Internet Information Server 5
 - How to Install Internet Explorer or Internet Service Manager 9
 - Unattended Setup When Installing from a Network Directory 9
 - The IUSR_computername Account 10
- How to Publish Information 10
 - How to Test Your Internet Information Server Installation 11

Chapter 2 Understanding the Internet and Internet Information Server 13

- What is the Internet? 13
- What is an Intranet? 14
- What is Internet Explorer? 14
- What is Internet Information Server? 14
 - What Can I Do with Internet Information Server? 15
 - How Does Internet Information Server Work? 15
 - Browser Requests 15
 - URL Syntax 15
 - Request Syntax 16
 - Information Server Response 16
 - Static Pages 16
 - Dynamic Pages 17
 - Directory Listings 18
 - How Do I Use Internet Information Server? 19
 - Intranet Scenarios 19
 - Internet Scenarios 20

Chapter 3 Configuring and Managing Your Internet Information Server 23

- Microsoft Internet Service Manager 23
 - Report View 23
 - Servers View 25
 - Services View 25
 - Property Sheets 26
 - The Service Property Sheet 26
 - The Directories Property Sheet 27
 - The Logging Property Sheet 29
 - The Advanced Property Sheet 30
- Using Other Windows NT Tools 31
 - Configuring Server Options with Control Panel 31
 - The Network Applet 31
 - The Services Applet 33
 - The ODBC Applet 33
 - Setting File Access with File Manager 34
 - Setting User Access with User Manager for Domains 34
 - Tracking Problems with Event Viewer 34
 - Monitoring Your Server with Performance Monitor 34

Chapter 4 Networking for the Internet or an Intranet 37

General Networking Issues 37

- Routers and Security Devices 37
- Typical Network Configurations 38
 - Internet Sites 38
 - Intranet Sites 40
 - Integrating Your Intranet with the Internet 40
- Administering Servers with Internet Service Manager 41
- Finding Other Computers on Your Network or Subnet 41

Publishing on the Internet 41

- How to Choose the Right Internet Connection 42
- Internet Connection Types 42
- IP Addresses and DNS 43
- Other Internet Client Services 43

Publishing on an Intranet 44

- Internet Explorer 44
 - What are the Differences Between Versions? 44
 - How Do I Distribute Internet Explorer to Users? 45
- Name Resolution Systems 45
 - Using Computer Names with WINS Servers 46
 - Using Computer Names and LMHOSTS 46
 - Using Domain Names with DNS Servers 46
 - Using Domain Names and HOSTS 46
- Using DHCP in Your Intranet 46
- Using URLs and Creating HTML Links for Intranets 47

SNMP Monitoring 47

Chapter 5 Securing Your Site Against Intruders 49

Securely Configuring Windows NT Server 49

- Preventing Intrusion by Setting Up User Accounts 50
 - Allowing Anonymous Access with the IUSR_computername Account 50
 - Requiring a Username and Password 50
 - Choose Difficult Passwords 51
 - Maintain Strict Account Policies 51
 - Limit the Membership of the Administrator Group 51

NTFS File Security	52
Enable Auditing	53
Running Other Network Services	53
Run Only the Services that You Need	53
Unbind Unnecessary Services from Your Internet Adapter Cards	53
Check Permissions on Network Shares	53
How Internet Information Server Security Works	54
IP Address Security	55
Username Authentication	55
Internet Server Permissions	55
NTFS Permissions	56
Securely Configuring the WWW Service	56
Controlling Access by Username	57
Controlling Access by IP Address	57
Disable Directory Browsing	58
Securing Data Transmissions with Secure Sockets Layer (SSL)	58
How to Acquire an SSL Digital Certificate	59
Suggestions for SSL Configuration and Operation	63
Setkey.exe Notes	63

Chapter 6 Planning Your Content Directories and Virtual Servers

65

Configuring a Single Content Directory	65
Setting the Default Document and Directory Browsing	66
Creating Virtual Servers	67
Specifying Directories with Virtual Servers	69
Directory	70
Configuring Content Directories	70
Home Directory	71
Virtual Directory	71
Specifying Directories with Virtual Servers	73
Account Information	73
Access Check Boxes	73

Chapter 7 Logging Server Activity 75

- Configuring Logging 75
 - Logging Limits 76
 - Enable Logging 76
 - Log to File 76
 - Automatically open new log 76
 - Log file directory 76
 - Filename 76
 - Log to SQL/ODBC Database 77
- How to Read Log Files 77
- Viewing Logs in Databases 77
- Converting Log File Formats 78

Chapter 8 Publishing Information and Applications 79

- Preparing Information for Publishing 79
 - Authoring HTML Files 79
 - Publishing HTML and Other File Formats 80
 - MIME Type Configuration 80
 - Including Other Files with the Include Statement 81
- Publishing Dynamic Applications 81
 - Creating the Applications or Scripts 81
 - Internet Server API 82
 - Common Gateway Interface 84
 - Installing Your Application on Internet Information Server 84
 - Running Your Application 85
 - Associating Interpreters with Applications 85
 - Security Implications 85
- Publishing Information and Using a Database 86
 - How the Internet Database Connector Works 86
 - Installing ODBC and Creating System Data Sources 87
 - Authoring Web Pages with Database Access 91

Chapter 9 Using the FTP and Gopher Services 93

- What is the FTP Service? 93
 - When Should I Use the FTP Service? 94
 - How Does the FTP Service Work? 94
 - Configuring Session Activity 94
 - Configuring FTP Logon 94
 - Configuring FTP Directories 95
 - Setting the Home Directory 95
 - Setting Listing Style 95
 - Setting Read and Write Permission 95
 - Creating Annotation Files 95
 - Special Directories in the Home Directory 96
 - FTP Clients 96
- What is the Gopher Service? 96
 - Configuring the Gopher Server 97
 - Tag Files 97
