

Adobe(R) Premiere(R) 5.0 Tryout Version Read Me

Welcome to the Adobe(R) Premiere(R) 5.0 Tryout Version! We hope you enjoy this opportunity to test the functionality of our award-winning video editing software.

This tryout version of Adobe Premiere is provided to allow you to preview the features of Adobe Premiere 5.0. The product is feature complete, except that it will not capture video, save any files, or export movies. You may, however, open files, import media, and try third party plug-ins with this version.

There is a tutorial and sample files that are included with this tryout version. Please note that there are places in the tutorial that instruct you to save your project. However, the tryout does not allow you to save. To purchase Adobe Premiere 5.0, please call Adobe Systems at 1-888-724-4507 or visit <http://www.adobe.com/prodindex/premiere/main.html>.

Thanks for trying Adobe Premiere 5.0.
Enjoy!
