

This is a Word 97 Template, with two attached programs, Document_Open() - - which runs whenever you open the template - - and Test, a very simple VBA/Word program.

You can see the programs by clicking on Tools, then Macro, Visual Basic Editor. In the Project Explorer window, click on TemplateProject (PCC Sample Template). To see Document_Open(), click on Microsoft Word Objects, then double-click on ThisDocument. To see Test, click on Modules, then double-click on SampleModule.
