

TERISA
SYSTEMS

Terisa Systems, Inc. was formed in 1995 to provide unified communications security solutions for the WWW. In early 1995, leading industry players such as AOL, CompuServe, IBM, Netscape, RSA and VeriFone/EIT forged a common commitment to WWW security by agreeing to pool both investment and technology in Terisa Systems. Terisa Systems' mission is to create the technologies that make secure Internet commerce possible.
