Speaker Background:

Mr. Gregory has been with Tele-Communications, Inc. the nation's largest cable television operator, since 1985 and has served in a variety of corporate positions for the company. Over the last four years he has lead the development of security technologies involved with the cable industry's use of digital compression technology.

Prior to working on the company's digital compression project, Mr. Gregory was the company's Director of Management Information Systems.

Mr. Gregory is a graduate of the University of Oregon and has been a part of the computer and telecommunications industries for the last twenty years.
