Company Background:

Since its founding in 1982, Dallas, Texas-based OpenConnect Systems, Inc., supplies companies worldwide with innovative technology solutions. With more than 2,500 systems installed in 60 countries, including 40 of the U.S. Fortune 50 companies, OpenConnect Systems is a leading provider of connectivity, interoperability and internetworking products and services that extend the reach of SNA across the World Wide Web.

Presentation Overview:

This topic will present the security concerns that face corporations in integrating the emerging Internet and World Wide Web with traditional SNA based enterprise information systems.

Speaker Background:

Stephen J. Clark is the President and CEO of Dallas-based OpenConnect Systems, a firm specializing in extending the reach of SNA across corporate Intranets and the Internet. Mr. Clark's IT experience in network integration and vertical market IT solutions spans 15 years with roles that have included senior engineering, marketing, sales, and professional services in numerous vertical industries and for notable corporations such as Hewlett Packard, Fujitsu-ICL and NCR.
