ANALYSTS' TRACK

Economic Modeling and Risk Management in Public
Key Infrastructures

Speaker: **Andrew D. Fernandes**

Consultant

CryptoNym Corporation

1 Place Ville Marie, Suite 1900

Montreal, Quebec H3B 2C3 Canada

Phone: 514-879-1353 x 217 Fax: 514-879-1460

Email: andrew@cryptonym.com

Company Background:

CryptoNym was founded in 1996 specifically to explore and exploit the issues surrounding the theoretical and practical aspects of universal public key infrastructure(s).

Presentation Overview:

We will consider current public key infrastructure (PKI) models in a broad spectrum of economic settings and suggest avenues for commercially reasonable risk management.

Speaker Background:

Andrew D. Fernandes is a mathematician and computer scientist who divides his time between research in theoretical cryptography/information theory and the hard practicalities of commercial network setup and administration.
