Presentation Overview:

The single highest-rated session of the RSA conference, five years running! Join the most famous minds in mathematics in a traditional RSA free-for-all. Dr. Peter Neumann of SRI hosts, and no subject is off-limits. There will even be time for some audience Q&A.

Speaker Background:

Ronald Rivest received a B.A. degree in mathematics from Yale University in 1969, and a Ph.D. degree in computer science from Stanford University in 1974. Dr. Rivest is a professor of computer science at MIT, associate director of MIT's Laboratory for Computer Science, and head of the Theoretical Computer Science Group. He is an inventor of the RSA Public-Key Cryptosystem. He has extensive experience in cryptographic design and cryptanalysis, and has published numerous papers in these areas. Dr. Rivest is a member of the ACM and National Academy of Engineering. He is also a director of International Association for Cryptologic Research, the organizing body for the EUROCRYPT and CRYPTO series of technical conferences on cryptology.
