

# THE 1997 RSA DATA SECURITY CONFERENCE

## SPEAKER BIOGRAPHY

### ANALYSTS' TRACK

Security Requirements for Federal  
and State Records on the Internet

Speaker: **Alan A. Mick**

Senior Professional Staff

John Hopkins University, Applied Physics Laboratory

John Hopkins Road

Laurel, MD 20723-6099

Phone: 301-953-6000x7386 Fax: 301-953-6198

Email: [alan.mick@jhuapl.edu](mailto:alan.mick@jhuapl.edu)

### Company Background:

The mission of Johns Hopkins Applied Physics Laboratory is the application of advanced science and technology to the solution of national problems. It is an acknowledged national resource, contributing in areas ranging from defense to space to biomedicine. While primarily involved with national security issues, the technology developed through defense research has proven valuable in solving urgent civil-sector problems.

### Presentation Overview:

Learn about the security and privacy requirements for federal and state public records administration and how they may be satisfied on the Internet utilizing data encryption techniques.

### Speaker Background:

Alan A. Mick has a Master of Science from the Rochester Institute of Technology and is now working on Department of Transportation projects applying advanced technology to increase the safety of commercial vehicle operations.
