Company Background:

RSA Data Security, Inc., a wholly owned subsidiary of Security Dynamics Technologies, Inc., is the world's brand name for cryptography, with more than 75 million copies of RSA encryption and authentication technologies installed and in use worldwide. RSA technologies are part of existing and proposed standards for the Internet and World Wide Web, ITU-T, ISO, ANSI, IEEE, and business, financial and electronic commerce networks around the globe. The company develops and markets platform-independent developer's kits and end-user products, and provides comprehensive cryptographic consulting services.

continued from page 1

In early 1995, Jim founded VeriSign, a company that provides products and services that allow for the identification of parties on the other end of an electronic trisection or session on the Internet.

He brought VISA, Ameritech, Mitsubishi, Bessemer Venture Partners, and others in as investors. Jim serves as Chairman of the Board of VeriSign.

Through advocacy, Jim has also made significant contributions. Jim is a member of the Boards of Directors of EPIC, the Electronic Privacy Information Center. EPIC is a major force in protecting individual rights to privacy in cyberspace. He has been a tireless advocate for privacy rights. He has testified before Congress, and has given hundreds of talks and speeches around the world.
