ANALYSTS' TRACK

Information Security in the Enterprise

Speaker: **Walt Curtis**

Vice President

Entegrity Solution Corporation

1000 Hamlin Court

Sunnyvale, CA 94089

Phone: 415-938-2234

Fax: 415-938-2237

Email: entegrity@aol.com

Company Background:

Entegrity Solutions is a leading supplier of enterprise-wide information security. The company provides practical implementations of complex security technologies. Entegrity focuses on open, integrated, symmetric and asymmetric cryptographic technology-based software solutions, security platforms, tools and services. Entegrity offers diverse information platforms of integrated "best of breed" technologies for its worldwide enterprise IT customer base.

Presentation Overview

This session will address enterprise absorption and deployment of diverse security policy frameworks over the next several years. These technologies must be high performance and highly secure as they move and protect the most critical resource of the enterprise -- its information.

Speaker Background:

Walt Curtis is Vice President of Entegrity Solutions Corporation. Curtis was formerly Vice President and General Manager of the iPower Business Unit at National Semiconductor where he founded an intrapreneurial startup providing high performance security tokens for commercial and government applications in secure messaging and electronic commerce. He has 27 years of strategic business and marketing management experience and has spoken extensively on how best to implement and deploy security technologies.
