April 13, 1988

## *Introduction*

Manhattan ZIP Code Locator is a shareware program that will find the ZIP Code for a particular area in Manhattan when given the proper address. Manhattan ZIP Code Locator can handle all the basic address formats in Manhattan including:

- numbered and named streets (over 860 total streets!)
- east and west street designations
- street name variations (Washington Place, Washington Terrace, etc.)

In addition to providing the ZIP Code for a specific address, Manhattan ZIP Code Locator will provide the parent U.S. Post Office for the area as well as the office's address.

This version DOES NOT support the following:

- apartment numbers
- unique ZIP Codes for specific buildings
- ZIP+4 Codes - this version only handles 5 digit codes
- Post Office box numbers

## *A Note About Shareware*

Manhattan ZIP Code Locator is a shareware product – its future is dependent upon your support. If you find this product useful and would like to see future versions, please show your support by sending the author a note and \$10 to the below address:

Craig Kerwien  
535 W. 110th St. #B2  
New York, NY 10025

Send your suggestions and any bug reports as well. Registered users will be notified of any future enhancements.

## *Legal Section*

All the information in Manhattan ZIP Code Locator was obtained from official New York Post Office documents, but the U.S. Postal Service does NOT endorse or otherwise "officially authorize" this product. The author can not be liable for any loss of profit or any other commercial damage, including, but not limited to special, incidental, consequential or other damages.

## *Credits*

A warm thank-you to Mike Bielen for his testing and suggestions.
