

This is a special placeholder file for use with EASI-PLAN's facility for extracting a spreadsheet-compatible file.

Do not use this file name (EASIPLAN.WKB). Instead, always use a new *.WKB name when extracting.

In addition to EASIPLAN.WKB, EASI-PLAN has been supplied with a specially formatted file (EASIPLAN.FMT) for use with a spreadsheet publishing system such as WYSIWYG for Lotus 1-2-3.

For guidance on using EASIPLAN.FMT, refer to Section 9.9 of EASI-PLAN's manual.
