

## Training and Consulting

There are two authorized training and consulting firms recommended by Imagine That, Inc.

- For explicit training in the use of Extend and consultation in the modeling of either complex discrete event systems and industrial processes or continuous systems:

Simulation Dynamics, Inc.  
402 North Maple Street  
Maryville, TN 37801 USA  
Telephone: 615-982-7046  
FAX: 615-982-2813

Simulation Dynamics specializes in providing solutions to business and process problems through the use of computer simulation and modeling. They also provide Extend training, consulting, and custom software libraries for use with Extend. Training seminars are scheduled at various times throughout the year, plus on-site training is available. Please contact Simulation Dynamics for more information.

- For business process reengineering, the modeling of business processes, and for training in the use of Extend+BPR:

Computer Aided Process Improvement  
PO Box 803  
West Chester, OH 45071 USA  
Telephone: 513-777-4872  
FAX: 513-777-9772

Computer Aided Process Improvement provides consulting services to assist in the reengineering of business processes. Workshops on business process reengineering techniques and the use of Extend+BPR to facilitate reengineering efforts are available as well as on-site training and consulting. Please contact Computer Aided Process Improvement for more information.
