

## Importance of Integrating Technology

"Do not ask what computers can do to students, but rather what students can do with computers."

--Anderson, B. & Ryba, K. 1990. Learning with Computers:Effective Teaching Strategies. International Society for Technology in Education, p.9).

"It's not so much that we're afraid of change, or so in love with the old ways, but it's that place in between...it's like being in between trapezes. It's Linus when his blanket is in the dryer. There's nothing to hold on to."

--Marilyn Ferguson

"Hardware without software is just junk but Software without teaching is just Noise."

--British MicroElectronics in Education Project.

"Awareness-->Application
