Explanation of Captured Messages

MSG#

Description

3175

A program called OBJECTVISION HAS BEEN UPLOADED

3177

OBJECTVISION IS IN THE OFF-LINE FILES (files

previously uploaded but no longer available)

3180

A request to a cracker to remove the doc check

on a program called CD-MAN game (a pac-man

look alike)

3182

Affirmative response from the cracker to remove

copy protection from CD-MAN game

3183

A question to other pirates concerning the use

of QEMM (a computer memory manager) and a

\$795 desktop publishing program called

Ventura Publisher

3191

A request for a crack from Flatline concerning

two games called THE TERMINATOR and RIDERS OF

ROHAN.

3197

A thankful note to the cracker from the person

who requested CD-MAN cracked. Copy protection

was obviously removed.

3191

A note from a cracker affirming an attempt to

remove copy protection from another program.

3203

A request for information concerning Paradox

for Windows.

3209

A request for a cracked copy of Pspice.

3215

Beginning note on cracking The Hong Kong Mahjong

Game (refer to other messages for status of the

crack MSGs 3241,3240,3250,3251,3287,3288).

3216

A request for the documentation (docs) for a

game called King's Quest IV.

3226

A note to a cracker expressing anticipation for

a tutorial on cracking (removing copy protection

from programs).

3236

A cracker's opinion on doc checks and copy

protection.

3315

Announcement of a new pirate bulletin board.

Appendix C

The following outlines the hardware configuration or the computer setup of D---- Z----; that is, what computers this pirate bulletin board runs off of. Notice that there are several computers; one has written in the approximate cost of each computer system next to the title.

-- 12-06-92 - 04:32:50 *--*

This is currently what the D--- Z---- is operating with:

Fileserver [PRICE:\$3000]	Node 1 [\$1000]
-----	-----
486/33 Tower	286/12 Minitower
2 320mb ESDI Imprimis HD's	1 Novell NE-2000 EthernetCard
1 650mb ESDI Maxtor HD	4mb of RAM
2 Ultrastor 12F ESDI Controllers	Hayes V-Series 9600 v.42 Modem
1 Novell NE-2000 Ethernet Card	IBM Monochrome Monitor
16mb of RAM	
Tecmar QT-125e Tape Backup	Node 2 [\$1700]
Perma Power 500 Watt UPS	-----
Monochrome Monitor	386/SX Desktop
	1 Novell NE-2000 Ethernet Card
Node 3 [\$2000]	4mb of RAM
-----	USR Courier HST 14.4k Modem
386/SX Desktop	IBM Color Monitor
1 Novell NE-2000 Ethernet Card	Panasonic 1592 Printer
2mb of RAM	
USR Courier HST Dual Standard	
IBM Color Monitor	
HP Laserjet IIP	

Network software is Novell Netware 386 v3.11. Bulletin board software is PC-Board v14.5.

Appendix D

A list of Software Handles/Aliases and where pirates are calling from.

Welcome to The D---- Z----

To become a member here you must read and understand the following rules:

1. All uploads sent to this board must be less than one year old from the current date.
2. Do not upload any program which has a virus, worms or is a trojan horse. CHECK YOUR FILES BEFORE UPLOADING!
3. Do not upload demos, betas, shareware, or public domain. (Unless requested by the Sysop or Co-Sysops)
4. You must retain a 4:1 byte ratio at all times.
5. Handles are strongly recommended on this board. If you are not using one right now answer 'NO' to the next question and call back.

If you think you can abide by these rules answer 'YES' to the next question and fill out the questionnaire. WARNING: Failure to abide by these rules will result in your deletion from this BBS.

WARNING! WARNING! WARNING! WARNING! WARNING! WARNING!
WARNING!

If you are connected at 2400 baud right now you will be kicked off after answering the questionnaire. We are no longer accepting any 2400 baud users, so don't waste your time and fill out the questionnaire. Simply answer NO to the next question or hang up. To gain access you must have a 9600 baud or greater

modem!
