

Overview

In this "electronic book," you'll find a variety of topics. To access the Table of Contents, simply press Command (or the key with the Apple on it) and the letter "K" at the same time. This will give you a list of all the topics.

You can PRINT anything. Just go File then Print. If you want to print a semantic web, make sure you change the page setup to landscape (sideways) so that it will print out right. Other things you might want to print out in landscape (sideways) include FORMS and PAMPHLETS.

Everything else is portrait (or vertical).

Special Thanks

It's funny, as I look over this electronic "book," I realize that I would like to thank some people. They are:

Monica & Aida, my wife and daughter

Margaret Escalera, my partner-in-crime and bounce-off-the-wall ideas person

Mark Gabehart, my Instructional Technology Mentor

Other folks include:

Virgil Kirk, Onore Valenzuela, Dorothy Gibson, Jim Baldoni, Larry Rymal, Nancy Moorhead, the TEMUG crew, David Gonzales, the teachers at Perales Elementary ,1992-1994.
