How to Register

You can register Dialog View or OtherMenu by two methods: Pay me directly using the "Direct Registration" file, or pay indirectly through the Kagi Shareware system, using the Register application.   The latter option allows more ways to pay, such as by credit card.   On the other hand, if you order directly you can order the latest versions on disk.

To pay using the Register program, launch the program and fill out the form.   If you choose to pay by credit card, you can copy the form to the clipboard and send it by e-mail to shareware@kagi.com.   If you prefer not to use e-mail, or to pay by cash or check, you can print the form and send it by snail mail to the address printed on the form.
