

To register SelfControl you need to purchase a license for using the software. By sending in the included registration form completed and by payment of SelfControl's license fee, you will receive a license number in return which will enable all restricted features.

CompuServe members can as well register online through CompuServe's SWREG service.

**IMPORTANT:**

Please state the application's serial number as it appears in the about box of your copy of SelfControl upon registration along with your full address.

Send the completed registration form to
