

If you don't have a modem or don't want to register this program electronically, you can call a toll-free (in the US) telephone number 24 hours a day and register over the telephone.

Tell the operator your "Personal Code" that appears below and the item(s) which you wish to purchase. The operator will tell you a secret "Unlocking Code." Enter it and click the right arrow. This program will then automatically become a registered copy.

If you've changed your mind and do not want to register over the telephone, click Cancel to go back to the beginning.
