

You're using Acrobat Reader to view a Portable Document Format (PDF) file created by someone else. But you can do much better with Acrobat 2.0.

By upgrading to Acrobat 2.0, you can create your own PDF files. That gives you complete control over how your documents look, how they're used, and who uses them—at all times.

To find out more, click on any of these buttons.

**Adobe™ Acrobat™ 2.0 gives
you all the benefits of
paper, without the chase.**

Add value to your documents

Make information more accessible

Acrobat 2.0 lets you create PDF files so you can start putting your documents to work electronically and make information more accessible. With the PDF Writer driver included in Acrobat Exchange, you can “print” a PDF file from common business applications, such as word processing and spreadsheet—and send it to anyone for use on Macintosh®, Windows™, DOS and UNIX® computers.

“Acrobat is the most complete solution to the problem of delivering electronic literature-on-demand capabilities to the field sales organization.”

Scott Davison, General Manager of Sales
Information Systems, Medior, Inc.
Software Developer

Add value to your documents

Make documents easier to browse

You can add navigation features such as links and bookmarks to PDF documents, making them faster and easier to skim through than paper documents. In fact, when you click on the Next button at the bottom of this page, you're using links in this document to move from topic to topic.

Click on the Bookmark icon in the menu bar above to display the bookmarks for this file. With Acrobat 2.0, you can create links and bookmarks that instantly take you to related information, even in other PDF files or other applications. For example, you can link to a QuickTime™ movie or to your word processor.

Next

Add value to your documents

Make the most of existing documents

Acrobat lets you reuse information by copying and pasting formatted text and graphics like the chart below into other applications, and by using pages from other Acrobat files to make new documents. Click on the Thumbnail icon in the menu bar above to display the thumbnails for this file.

On the left side of the screen, you'll see mini-pages called thumbnails. In Acrobat 2.0, you can easily use them to re-order, move, insert, delete or replace pages within or between PDF documents. It's a great way to make use of existing information without a lot of extra effort.

Add value to your documents

Integrate with existing applications

With its open architecture, Acrobat software adapts to your needs and applications. It supports Lotus Notes®/FX, OLE, DDE, AppleEvents and AppleScript™, so you can easily incorporate it into your application environment. And you can get started with Acrobat now, because it works with your existing file servers, applications and e-mail software.

Add value to your documents

Read multi-column documents easily on-screen

Because what's designed for print is not necessarily optimal for on-screen viewing, Acrobat 2.0 provides Article Threads, which let you easily read a multi-column document on-screen. To see article threads at work, click on the Next button below.

PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED
JANUARY 19, 1994

9,500,000 Shares

CRYOBOND INC.

COLD FUSION TECHNOLOGIES

Common Stock

(par value \$.162/3 per share)

Common Stock (par value \$.162/3 per share) All of the shares of Class A Common Stock, par value \$.001 per share ("Common Stock"), offered hereby are being offered by Cole National Corporation, a California corporation (the "Company"). Prior to the offering, there has been no public market for the Common Stock. See "Underwriting" for a discussion of the factors considered in determining the initial public offering price.

The shares of Common Stock offered hereby have been authorized for listing on the New York Stock exchange, subject to official notice of the issuance thereof, under the symbol "CBI"

These securities have not been approved or disapproved by the federal securities and exchange commission or any state securities commission nor has the federal securities and exchange commission or any state securities commission passed upon the accuracy or adequacy of this prospectus. any willful representation to the contrary is a serious criminal offense.

(1) The Company and certain stockholders of the Company have agreed to indemnify the underwriters against liabilities under the Securities Act of 1933 as amended. See "Underwriting"

(2) Before deducting expenses payable by the Company estimated at \$700,000.

(3) Certain stockholders of the Company have granted to the several Underwriters options, exercisable within 30 days of the date hereof, to purchase up to 750,000 additional shares of Common Stock solely to cover over-allotments, if any. If such options are exercised in full, proceeds to such selling stockholders will be \$8,370,000 which amount is net of an underwriting discount of \$630,000. The Company will not receive any of the proceeds from the sale of shares of Common Stock by such selling stockholders. See "Selling Stockholders" and "Underwriting."

The Company

CryoBond, which generated approximately 48% of the nation's electricity is the third largest provider of energy products and fusion services in the United States. As of January 29, 1994, CryoBond operated 774 power plants in the United States and other host nations along with 12 free orbiting power stations under the name "Power Transcom Inc." Effective January 30, 1994, CryoBond acquired the operations of an additional 107 facilities within the United States. CryoBond offers comprehensive management consultation to major employers and health care providers through its managed assets program. CryoBond's product line includes a broad selection of services and accessories at all levels of energy retail and wholesale.

Find information instantly

Acrobat gives you instant access to information. Full-text search across multiple documents lets you instantly retrieve exactly what you're looking for. Search for single words, whole phrases and other information across thousands of documents on your computer or on a network.

“The search capabilities of Acrobat are great. Clients expect fast turnaround and quick retrieval of copy. Acrobat helps us meet and exceed those expectations. Using Acrobat, our clients’ ads are first to market and this definitely helps give them a leg up on the competition.”

Chris Miller, Director of Macintosh Computing,
Capps Studio/Leo Burnett Company

Protect your data

The security features in Acrobat 2.0 provide an excellent way to control access to documents, more easily and efficiently than is possible with paper. You can password-protect your PDF file or give users read-only access to a file by enabling or disabling features such as print, save, and the ability to make any changes or select text and graphics.

The image shows a screenshot of the 'Specify Password To' dialog box in Acrobat 2.0. The dialog box has a title bar and a main area with several sections. The first section is 'Specify Password To', which contains two password fields. The first field is labeled 'Open the Document:' and the second is labeled 'Change Security Options:'. Both fields are represented by a series of dots. The second section is 'Do Not Allow', which contains four checkboxes. The first checkbox is 'Printing' and is unchecked. The second checkbox is 'Changing the Document' and is checked. The third checkbox is 'Selecting Text and Graphics' and is unchecked. The fourth checkbox is 'Adding or Changing Notes' and is checked. At the bottom of the dialog box are two buttons: 'Cancel' and 'OK'. A mouse cursor is pointing at the 'OK' button.
